If applicant wishes to resubmit the non-compliant after-final amendment with corrections, the **entire corrected amendment** must be resubmitted within the time period set forth in the final Office action.
2. Applicant is given **one month**, or thirty (30) days, whichever is longer, from the mail date of this notice to supply the **corrected section** of the non-compliant amendment in compliance with 37 CFR 1.121, if the non-compliant amendment is one of the following: a preliminary amendment, a non-final amendment (including a submission for a request for continued examination (RCE) under 37 CFR 1.114), a supplemental amendment filed within a suspension period under 37 CFR 1.103(a) or (c), and an amendment filed in response to a *Quayle* action.

**Non-entry** of the amendment if the non-compliant amendment is a preliminary amendment or supplemental amendment.

**Continuation Sheet**

***Response to Amendment***

Newly submitted claims 44-54 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: newly added claims 44-54 recite methods for detecting intracellular translocation of a subunit where as elected claim 39 recited a method to identify biologically active substances. New claims 44-54 recite compositions and method steps not found in elected claim 39 such as "detecting intracellular translocation of a subunit", "a nucleotide sequence coding for a hybrid polypeptide comprising a luminophore", "measuring the light emitted from the luminophore", and "incubating the cell...with a substance to be screened". As such, the new claims are considered to be a patentably distinct invention from that elected in claim 39. Rather than replying to the previous Office Action, applicants have instead submitted new claims to a different invention.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 44-54 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.
